Comment :

This book's intended audience is for adults who are fans of dark romance with heavy spice. It contains a content advisory because it deals with mature themes that include stalking, graphic sexual content, violence, abuse, manipulation, and other potentially disturbing material. This book is recommended if you enjoy true crime content (this book gets you inside the head of a villain protagonist), morally gray antiheroes, psychological thrillers, gothic haunted houses, and discussing controversial books. There is an emphasis on cat-and-mouse dynamics and be prepared to need the sequel since it is a duology. Not recommended if you prefer healthy, romantic relationships. Be aware that BookTok content creators tend to focus on the romance and might not cover the mature content and trigger warnings.
